## Professional Summary

---

Recent Computer Science graduate with a strong foundation in software development and a passion for creating innovative solutions. Seeking a Software Developer role where I can apply my technical skills and creativity.

## Skills and Qualifications

---

- Languages: Java, C++, C, JavaScript, HTML/CSS, SQL, Python
- Tools & Technologies: Git, React, Node.js, Docker, Kubernetes
- Frameworks: Tailwind CSS, Next.js, Styled Components, .NET
- Methodologies: Agile Development, Scrum

## Projects

---

### “Portfolio Website” | Personal Project

July 2023

- Developed a responsive full stack web application to highlight my skills, projects, and experience.
- Technologies used include, Tailwind CSS, Next.js, and Framer-motion
- Deployed using Vercel at: <https://valerie-portfolio-website.vercel.app/>
- GitHub: <https://github.com/Valeraii/portfolio-website>

### “Full Stack Ecommerce Website” | Personal Project

June 2023

- Developed a full stack ecommerce app, including an intuitive admin panel for seamless product management and order tracking and an engaging and user-friendly storefront interface to showcase products and facilitate seamless customer purchasing experiences.
- Technologies used include, Tailwind CSS, Next.js, MongoDB, and Styled Components
- Deployed using Vercel at: <https://ecommerce-store-opal.vercel.app>
- GitHub: <https://github.com/Valeraii/ecommerce-store>

### “Roll a Hippo Foundation” | Academic Project

May 2023

- Developed a customer relationship management (CRM) platform to manage interactions with beneficiaries of RAHF programs
- Applied Agile development methodologies and Git version control
- Technologies used include HTML, CSS, JavaScript, Python, Twilio, Docker, and Django
- GitHub: <https://github.com/DWSimon3/BCIT-ROLLERS>

## “SHEET” | Academic Project

Jan 2023

- Created a robust online timesheet management system that allows employees to log the number of hours worked per day, also including information such as project, work package, and total weekly hours
- Also includes functions such as automatic data management, report generation, and the ability for employees to electronically sign their timesheets in a legally valid manner.
- Technologies used include ASP.Net, SQL, Docker, and Kubernetes
- Deployed on OKD at: <https://sheet-samsam-tech.apps.okd4.infotech.ca/Identity/Account/Login?ReturnUrl=%2F>

## Education

---

### British Columbia Institute of Technology

Class of 2023

Associate of Science: Computer Systems Technology

- Information Systems Option
- Graduated with Honours

### Simon Fraser University

Class of 2021

Bachelor of Arts: Criminology

- Relevant Coursework: Intro to computer science and discrete mathematics

## WORK EXPERIENCE

---

### Waitress | Banana Leaf

2023 – current

- Actively participated in team meetings, offering valuable suggestions to improve efficiency and guest satisfaction
- Proficient in clarifying and confirming customer understanding to avoid miscommunication

### Waitress | Hooked Fish Bar
